

JOHN KIM QUEROBINES

Senior Frontend / Full-Stack & AI Agent Engineer

Quezon City, Philippines | jkim.querobines@gmail.com | LinkedIn: linkedin.com/in/john-kim-q-4507521b8 | GitHub: github.com/Kerubi-5 | Portfolio: personal-portfolio-sage-delta-47.vercel.app

PROFESSIONAL SUMMARY

Results-driven Senior Frontend & Full-Stack Engineer with 4+ years of experience building high-performance web applications, AI agent frameworks, and custom software systems. Specialized in TypeScript, Next.js, Astro, React, Python, and modern AI orchestration. Graduated Cum Laude with a BS in Information Technology (PUP 2022). Proven track record of delivering scalable web platforms and automating complex workflows for agency clients and international partners.

TECHNICAL SKILLS

- **Languages & Core:** TypeScript, JavaScript (ES6+), Python, HTML5, CSS3, SASS
- **Frontend Frameworks:** Next.js, Astro, React, Tailwind CSS, Redux Toolkit, Webpack, Vite
- **Backend & APIs:** Node.js, Express, RESTful APIs, GraphQL, Python (FastAPI/Flask)
- **AI & Automation:** Autonomous AI Agents, LLM Integration, Prompt Engineering, Workflow Automation
- **Tools & Infrastructure:** Git, GitHub Actions, Vercel, Docker, Linux/macOS CLI, CI/CD Pipelines

PROFESSIONAL EXPERIENCE

Senior Frontend / Full-Stack & AI Engineer — *Baoss Dev Agency*

2023 – Present

- Architected and deployed responsive frontend interfaces and AI-driven workflow engines using Next.js, TypeScript, and Tailwind CSS.
- Integrated custom AI agent frameworks and LLM orchestration tools to automate administrative and data processing pipelines.
- Implemented CI/CD workflows via GitHub Actions and Vercel, reducing deployment times from 30 minutes to under 2 minutes.

Full-Stack Web Developer (Contract) — *Alba Facilities Services Ltd.*

2026 – Present

- Architected and developed the Alba Dashboard application for facility operations and asset management using TypeScript, React, and REST APIs.
- Streamlined data visualization and UI components, improving page load speeds and user accessibility across operational workflows.

Frontend & Tools Developer (Contract / Partner) — *Sales For Nice People (Martin Stellar)*

2026 – Present (Prior Contract 2024)

- Re-engaged by founder in 2026 to build specialized lead generation tools, Obsidian plugins, and web infrastructure.
- Developed content analysis algorithms and lightweight, SEO-optimized web templates in Astro and Tailwind CSS achieving 98+ Lighthouse scores.

Web Developer & Digital Systems Specialist — *Yannick Jacob*

2024 – 2025

- Architected and built the main web platform for Go Coaching Lab (<https://gocoachinglab.com/>) using modern web frameworks.
- Maintained and optimized the Coaching & Mediation platform (<https://www.coachingandmediation.net/>), enhancing uptime and site responsiveness.

KEY PROJECTS

- **Atlas Operating System & KairOS:** Python, TypeScript, Node.js, SQLite — Autonomous AI operating system and task execution co-pilot for human-AI co-working.
- **Metis Knowledge Platform:** Python, TypeScript, Vector Search — Knowledge synthesis platform providing automated research summarization.
- **Personal Portfolio:** Astro, Tailwind CSS, Vercel — Ultra-minimalist static portfolio achieving 100/100 performance scores.

EDUCATION

Polytechnic University of the Philippines (PUP)
BS in Information Technology — **Cum Laude Honors**

2018 – 2022
Manila, Philippines
